## Summary

Over 1 year of experience in building e-learning platforms, coding challenge applications, and interactive educational tools. Proven track record of delivering scalable, user-focused interfaces that drive engagement and improve learning outcomes. Skilled at collaborating with cross-functional teams to optimize performance and translate user feedback into actionable features. Committed to writing clean, maintainable code that supports long-term growth and seamless user experiences.

## Experience

### Full Stack Developer | PexFect | Freelance | Aug 2025 – Nov 2025

- Led development of an interactive coding challenge platform that helps developers sharpen their skills through hands-on practice and real-time AI-powered feedback.

- Designed and implemented a modular, scalable architecture with reusable components, ensuring easy maintenance and future feature expansion.

- Created a structured learning road map with progress tracking features, guiding users through their learning journey and enhancing learning outcomes.

- Optimized application performance and user experience, ensuring fast load times and smooth navigation.

### Frontend Developer | eCampusJo | Part-time | Jan 2025 – Oct 2025

- Enhanced web capabilities for a national educational platform serving over 1,000 students, increasing user engagement by 20%. Led a feature redesign to streamline user interaction.

- Collaborated with team members to improve system performance, reducing page load times by 15% and improving the overall user experience.

- Designed and implemented a progress-tracking roadmap that guided users, provided milestones, and improved learning outcomes and engagement.

- Implemented clean and organized code practices, ensuring the platform remained maintainable, scalable, and easy to extend with future features.

## Skills

**Technical:** HTML | CSS | JavaScript | TypeScript | Tailwind CSS | React.js | Next.js | Node.js | Express.js | RESTful API | Redux | SQL | NoSQL | Git | GitHub | UI/UX Design

**Soft:** Communication | Mentoring | Collaboration | Problem Solving | Agile Development | Process Optimization | Reliable | Adaptability

## Education

Zarqa University | Bachelor in Software Engineering/Information Technology | Sept 2021 – Feb 2026

**GPA:** 3.70

**Funded by:** DAFI Scholarship.

## Languages

Native Arabic speaker | Fluent in English
