SUMMARY

Full-Stack Web Developer with 2+ years of experience building web applications, automation systems, and AI-powered tools. Comfortable across the stack, from React and Next.js frontends to Node.js, with hands-on experience integrating AI APIs and designing practical systems from scratch. I work well in collaborative teams and communicate fluently in both Arabic and English.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

AI / ML: AI API integration, prompt engineering, ML concepts, data processing pipelines

Databases: MongoDB, MySQL, Supabase

Tools: Git, GitHub, Vercel, Linux, Bash, Figma

Other: System design, SDLC, Agile, technical documentation, Arabic (native), English (fluent)

EXPERIENCE

Full Stack Developer | Abu Sonbul for Arab Transportation

Jun 2024 – Present | Amman, Jordan

- Built a bilingual (Arabic/English) internal management system from scratch covering payment vouchers, load tracking, advance reconciliation, and cross-company duplicate detection across 15+ client companies on 5 freight lines
- Designed a parent-child data model for voucher entries and implemented a WhatsApp message parser that auto-extracts driver data
- Built an Excel import pipeline with zero-error tolerance and real-time validation logic
- Maintained and iterated on the system continuously based on operational feedback

Full Stack Developer (Freelance) | Pexfect

2024 – Present | Remote

- Designed and built an AI-powered developer learning platform where users tackle real-world challenges, submit GitHub repos and live demos, and receive AI-generated code feedback and learning roadmaps
- Handled the full stack: React, Next.js, and TypeScript on the frontend, Node.js and REST APIs on the backend, plus AI API integration for automated review
- Built an analytics dashboard with real-time data visualization for LigaData (96+ Lighthouse score)
- Developed a performance-focused landing page for Nebo and managed each project end-to-end from scoping to deployment

Frontend Developer | eCampusJo

Jan 2023 – May 2024 | Jordan

- Developed and maintained React and TypeScript features for an educational web platform
- Integrated REST APIs with the backend team to improve core user flows and overall UX
- Participated in code reviews and maintained component consistency across the codebase

Frontend Instructor | KIT Jordan

Sep 2023 – Dec 2023 | Jordan

- Designed and delivered a structured frontend curriculum covering HTML, CSS, JavaScript, and React
- Mentored students individually, tracked progress, and adapted delivery based on cohort needs

Technical Consultant | GDG Zarqa

2022 – 2023 | Jordan

- Advised on technical direction for community events and developer workshops
- Organized and delivered sessions on web development and emerging technologies

Project Management Intern | Deloitte

Dec 2025 – Feb 2026 | Jordan

- Supported project planning and reporting workflows within a consulting team
- Gained hands-on exposure to enterprise documentation, stakeholder communication, and process analysis

EDUCATION

B.Sc. Software Engineering | Zarqa University

2022 – 2025 | Jordan

- GPA: 92.2% graduated in 3.5 years
- DAFI Scholarship recipient (UNHCR), awarded for academic excellence
